ESSENTIAL SKILLS FOR THE WORKPLACE

UNITS OF COMPETENCY

Below are the units of competency required for this course.

UNIT CODE	UNIT DESCRIPTION
-----------	------------------

HLTAID011	Provide first aid
-----------	-------------------

UNIT OVERVIEW

HLTAID011 - Provide first aid

This unit describes the skills and knowledge required to provide a first aid response to a casualty in line with first aid guidelines determined by the Australian Resuscitation Council (ARC) and other Australian national peak clinical bodies. The unit applies to all persons who may be required to provide a first aid response in a range of situations, including community and workplace settings.

This unit covers the following:

- First aid management
- Bleeding control
- Respiratory distress
- Basic wound care
- How to respond to emergencies
- Assist people suffering from shock

Knowledge Evidence examples: Knowledge of state/territory regulations, first aid codes of practice and workplace procedures; considerations when providing first aid such as airway obstruction and CPR; principles and procedures for first aid management for a range of scenarios including abdominal injuries, allergic reaction, choking and basic wound care.

Performance Evidence examples: Students must perform at least 2 minutes of uninterrupted single rescuer cardiopulmonary resuscitation (CPR) (5 cycles of both compressions and ventilations) on an adult resuscitation mannequin on the floor; perform at least 2 minutes of uninterrupted single rescuer CPR (5 cycles both compressions and ventilations) on an infant resuscitation manikin placed on a firm surface; applied first aid procedures for anaphylaxis, bleeding control, shock and respiratory distress.

IMPORTANT: Learners must be physically capable of bending and kneeling to provide first aid to a person on the floor. This includes performing CPR for a specific amount of time on the manikins.
